

HORIZON

RESIDENCE

INTRODUCTION

Horizon Residence is Koh Samui's premier condominium development. Located only a 4 minute walk to Koh Samui's most beautiful beach, "Choeng Mon". The Horizon Residence location could not be better situated, the airport is only minutes away, as are the main restaurants, bars, shopping areas, and the night life of Chaweng.

Horizon Residence is offering its owners a fully managed investment and lifestyle opportunity. The stunning apartments and town houses will offer an unrivaled build quality, with a contemporary design. Providing modern living in an idyllic setting, the beautiful gardens and inviting pools will encapsulate the surroundings, and provide a peaceful environment for owners and guests to enjoy.

The high quality accommodation and ambient communal areas, including 3 communal swimming pools, a bar/restaurant, gym, and a professional team of hotel experienced staff, we will ensure that Horizon Residence will be a great place to stay for the abundance of tourists and owners that prefer the independence of staying in a "home from home".

HR

HORIZON RESIDENCE

Horizon Residence has been designed around the concept of healthy living. Healthy for the guests and residents, due to the 3 large swimming pools, fully equipped gym, and our close proximity to Choeng Mon beach, and also healthier for the environment, as we have actively sought ways to reduce the buildings "Carbon Footprint".

An Alu + an aluminum composite will be used on the exterior of the buildings, which will dramatically reduce heat within the units, therefore reducing the usage of air-conditioning, and reducing the need to re-paint the exterior of the building. The insulation used in the walls, will also trap the cold air in the units, and produce far better sound insulation than normal brick walls. Each units front door, will have rubber seals to stop cold air from escaping, which will also add to the sound insulation.

The large interior communal staircase, with the eye catching skylight, will have a pond at the base which will help cool down the area, negating the need for air-conditioning
